Bibliometrics: Downloads (6 Weeks): 22,   Downloads (12 Months): 148,   Citation Count: 5

The practical experience of RosettaNet in using Web technologies for B2B integration illustrates t transformative power of Web technologies and also highlights challenges for the future. This pap an overview of RosettaNet technical standards ...

Keywords: B2B integration, PIP, XML, business process, messaging services

50 A *k*-anonymous communication protocol for overlay networks
Pan Wang, Peng Ning, Douglas S. Reeves
March 2007 ASIACCS '07: Proceedings of the 2nd ACM symposium on Information, computer and
              communications security
Publisher: ACM
Full text available: pdf(456.01 KB)   Additional Information: full citation, abstract, references, index terms

Bibliometrics: Downloads (6 Weeks): 21,   Downloads (12 Months): 197,   Citation Count: 0

Anonymity is increasingly important for network applications concerning about censorship and pr existing anonymous communication protocols generally stem from mixnet and DC-net. They eith provide provable anonymity or suffer from transmission ...

Keywords: anonymity, overlay networks, security

51 SF-HME system: a hierarchical mixtures-of-experts classification system for spam filtering
Petros Belsis, Kostas Fragos, Stefanos Gritzalis, Christos Skourlas
April 2006   SAC '06: Proceedings of the 2006 ACM symposium on Applied computing

Publisher: ACM
Full text available: pdf(134.24 KB)   Additional Information: full citation, abstract, references, index terms

Bibliometrics: Downloads (6 Weeks): 6,   Downloads (12 Months): 110,   Citation Count: 0

Many linear statistical models have been lately proposed in text classification related literature a
evaluated against the Unsolicited Bulk Email filtering problem. Despite their popularity - due both
simplicity and relative ease of interpretation ...

Keywords: hierarchical systems of experts, machine learning, spam mail

52 Defeasible security policy composition for web services
Adam J. Lee, Jodie P. Boyer, Lars E. Olson, Carl A. Gunter
November 2006 FMSE '06: Proceedings of the fourth ACM workshop on Formal methods in security
Publisher: ACM
Full text available: pdf(234.15 KB)   Additional Information: full citation, abstract, references, index terms

Bibliometrics: Downloads (6 Weeks): 11,   Downloads (12 Months): 257,   Citation Count: 0

The ability to automatically compose security policies created by multiple organizations is fundan
the development of scalable security systems. The diversity of policies leads to conflicts and the
resolve priorities between rules. In ...

Keywords: defeasible logic, security policy composition, web services

53 A secure and resilient WSN roadside architecture for intelligent transport systems
Jens-Matthias Bohli, Alban Hessler, Osman Ugus, Dirk Westhoff
March 2008 WiSec '08: Proceedings of the first ACM conference on Wireless network security
Publisher: ACM
Full text available: pdf(390.91 KB)   Additional Information: full citation, abstract, references, index terms

Bibliometrics: Downloads (6 Weeks): 2,   Downloads (12 Months): 2,   Citation Count: 0

We propose a secure and resilient WSN roadside architecture for intelligent transport systems wl
supports the two complementary services accident prevention and post-accident investigation. C
security architecture is stimulated by the understanding ...

Keywords: security, vehicular ad-hoc networks, wireless sensor networks
